JGA

Your partner in metal solutions

We are passionate about what we do and put ourselves in your shoes, making the difficult seem easy. Fulfilling commitments is not just an option but a habit acquired through technical expertise and effective management. We know how to innovate and leverage our experience in every solution, service, and product we offer.

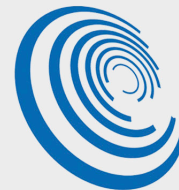

When facing a technical challenge to reduce costs, **JG Automotive** is the answer.

OUR CLIENTS

At **JG Automotive**, we are a team of over **200 professionals** dedicated to our clients, actively and responsibly working to fulfill our commitments with the goal of exceeding their expectations. We ensure that all the gears of our company function seamlessly, allowing us to offer products that combine design, quality, and sustainability at competitive prices. At the same time, we continue to advance in key intangible aspects such as circularity, diversity, and transparency—core values that foster a relationship built on mutual trust.

These are some of the **clients** who trust us and whom we have helped grow, building strong, long-term relationships.

GLOBAL ALLIANCE AUTOMOTIVE

In June 2002, **JG Automotive** became a Founding Partner of the largest global network of business development and engineering service providers, creating **Global Alliance Automotive**.

GLOBAL ALLIANCE AUTOMOTIVE

- Active in the main automotive markets.
- 19 independent local offices.
- 15 countries: America, Europe, and Asia.
- €1.72 billion.

GLOBAL ALLIANCE SCOPE

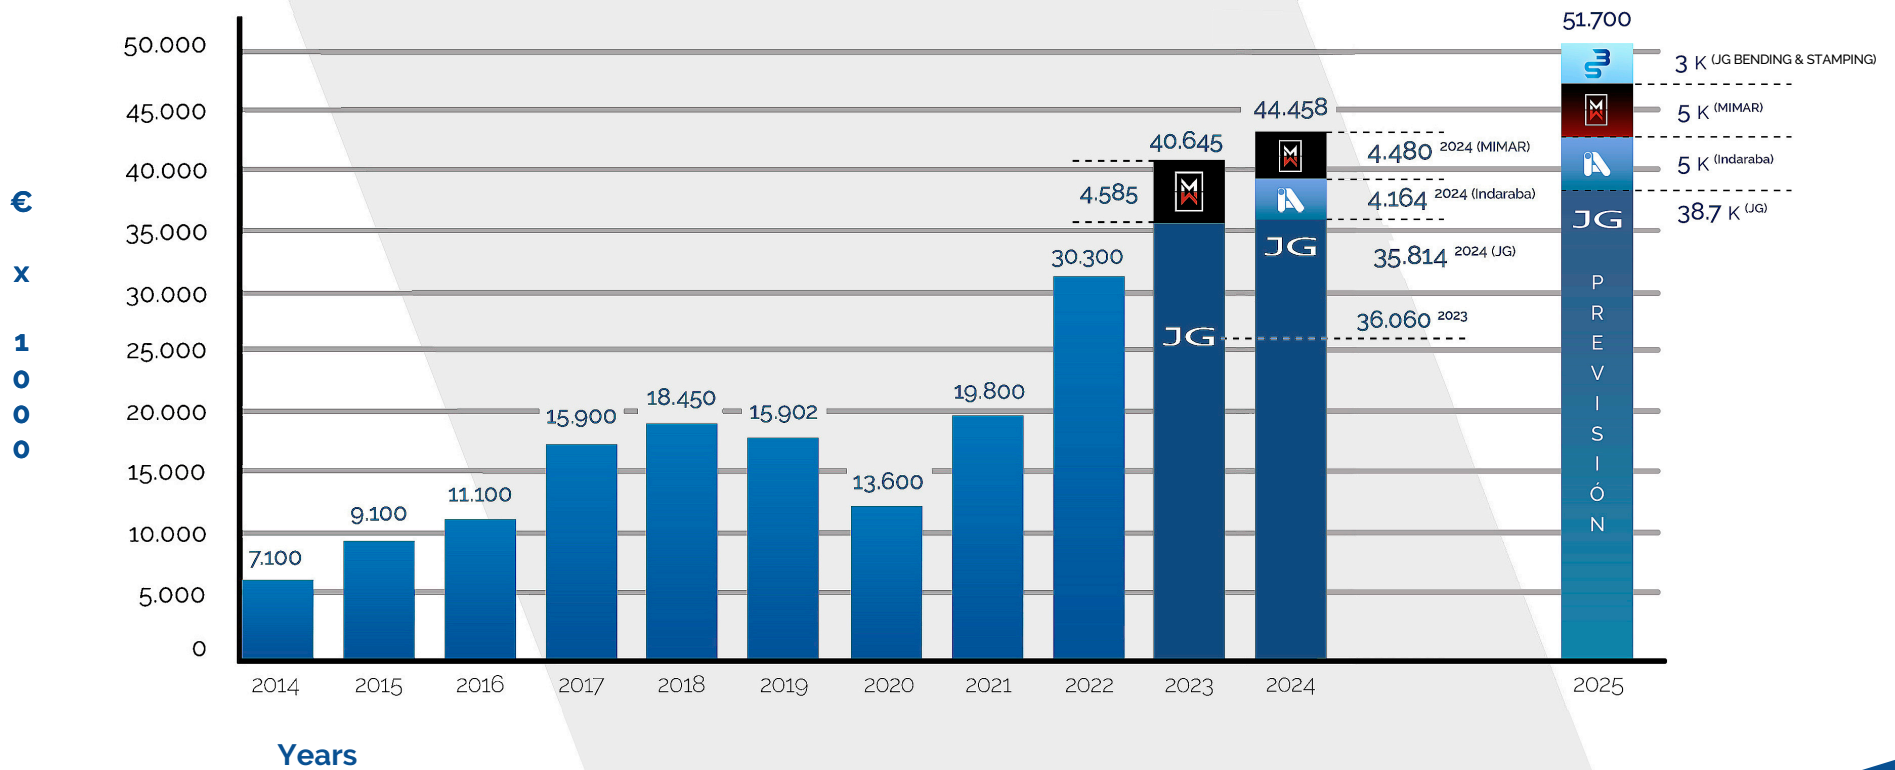

- Full-service provider.
- Global network of business development and engineering service providers.
- Access to 230 engineers and qualified specialists.
- Aware of the latest requirements, changes, and trends thanks to an intimate global presence.
- Strong relationships with manufacturers.

JG BENDING STAMPING
JG AUTOMOTIVE GROUP

In 2021, **JG Automotive** acquired the **Laser Mimar** factory in Barcelona. We became specialized manufacturers in the automatic forming of sheet metal, using cutting-edge technology for:

- Laser cutting with automatic storage.
- Robotic welding cell and arm.
- Complete CNC bending cell.
- 5-axis machining center.
- Climate-controlled paint booth.

In 2024, **JG Automotive** acquired **Industrias Araba** (Indaraba) in Vitoria-Gasteiz, a leader in **CNC machining** of highly complex and critical parts for demanding industries. We specialize in the automotive sector, focusing on medium and large production runs.

In December 2024, **JG Automotive** acquired **JG Bending & Stamping**, a stamping workshop in Saragossa, which also has capabilities for tube forming and sheet metal fabrication. This plant expands the Group's manufacturing portfolio.

JG AUTOMOTIVE CAPABILITIES

EXPERIENCE

JG Automotive has established itself as a key reference in the supply of metal components thanks to its long track record in the industry.

- **Process and product** engineering.
- Competitive sourcing of **raw materials**.
- **Efficiency and effectiveness** improvements for cost savings.
- Global **supply chain** management.
- **Comprehensive support** for supplier reduction programs.
- **Warehousing and logistics services** up to your plant.
- **Expert consultancy** in cost-reduction programs.
 - Sales force for leading **automotive manufacturers**.
 - Exclusive access to unique **manufacturing methodologies**.
 - Continuous innovation with **Industry 4.0**.

INDUSTRY 4.0

EXPERIENCE

At **JG Automotive**, we combine data and digital technology to reinvent products with Artificial Intelligence. **Industry 4.0** is the name given to this model, integrating engineering and digital manufacturing.

- AI-powered visual inspection system to detect quality defects.
- Solution that increases surface rigidity and hardness while reducing weight.
- AI-based system for weld quality and defect detection.
- Highly effective damping box without electronic components.
- Electrical circuits embedded in fabric with multiple functions.
- Heat dissipation solutions.
- Material forming using high-pressure liquid.
- Design and product engineering.
- Informative displays on any glass surface.
- AI-powered 3D vision system that detects distance, direction, speed, and object type.
- AI vision with sensors capable of detecting pedestrians, traffic, and any object while simultaneously monitoring the vehicle's interior, its condition, and the driver's state.

INDUSTRY 4.0

EXPERIENCE

- Manufacturing of leather substitute fabrics from tea waste, reducing the carbon footprint.
- AI-generated sound integrated into the seat.
- Organic wood-like solutions.
- Highly effective damping box without electronic components.
- Automated emissions control and environmental monitoring.
- Heat dissipation solutions.
- Company specializing in noise reduction.
- Medium-volume, high-precision 3D printing of plastic and metal parts, including machining, post-processing, and 3D modeling.
- 3D printing with metallic ink.
- Manufacturing of parts with recycled polymer of any horizontal size.
- Automatic electropolisher for complex surfaces, reducing the need for personnel.

CARBMEE & JG AUTOMOTIVE

ADVANCED CO₂ EMISSIONS MANAGEMENT

At **JG Automotive**, we are committed to sustainability through innovative technology. We have implemented **Carbmee** to monitor and reduce our **CO₂ emissions** in real-time.

Now, we offer this solution to our clients, enabling them to optimize their environmental management with:

- Real-time emissions monitoring.
- Detailed reports for regulatory compliance.
- Predictive analysis to reduce carbon footprint.
- Easy integration with existing systems.

The partnership between **JG Automotive** and **Carbmee**, with the implementation of the **EIS™ System**, strengthens our commitment to sustainability, driving a more efficient and responsible industry. 🌱

AFAR & JG AUTOMOTIVE

At **JG Automotive**, we are strategic partners of **AFAR** (Association of Andalusian Manufacturers of Refrigeration and Air Conditioning) to drive **innovation**, **sustainability**, and **industrial competitiveness**. This alliance strengthens **business collaboration** and opens new opportunities in a key sector for the national economy.

Together, we work on **internationalization**, **decarbonization**, and **the development of technological projects** that strengthen the industry. A cooperation that looks to the future and consolidates a more innovative and sustainable industrial model.

OUR PARTNERS

We work hand in hand with our **Partners** to develop the right product and bring it to market at the perfect moment. Our goal is to create high-value products with a strong **differentiating factor**.

Discover which companies are already part of the **JG Automotive** Partner network.

JG QUALITY

JG Automotive Group ensures all the necessary and up-to-date documentation at every stage of development and production, thereby guaranteeing smooth communication and high quality standards.

Socially Responsible Investing

Responsible Minerals Policy

Corporate Social Responsibility

”

Our ability to adapt has allowed us to become one of the leading companies in the metallurgical **sector in Spain** and expand operations across three continents while reducing costs.
